TOOLS/TECHNOLOGY

HTML, CSS, Sass, JavaScript, Vue.js, Nuxt.js, Vuetify, Git, Github, Netlify, Firebase, Figma,

WORK EXPERIENCE

Frontend Developer CONNEKT STUDIO

Bangladesh, Intern, February 2023– Present

CONNEKT STUDIO is a venture studio & consulting company based in Bangladesh. Working as a frontend developer intern, responsible for designing and maintaining web applications.

Technology: HTML, CSS, Sass, JavaScript, Vue.js, Nuxt.js, Vuetify, Figma, Firebase

- Developed and implemented visually appealing and functional web pages using Vue.js and Nuxt.js
- Created responsive web designs using Vuetify and CSS to ensure optimal user experience across multiple devices and screen sizes
- Integrated REST APIs seamlessly into front-end and back-end systems using Axios and Fetch
- Utilized Git and GitHub for version control and collaborative development to manage code revisions and facilitate teamwork
- Contributed to the development of ApolloHMS, a hospital management system, and a voice-to-text transcription app
- Applied technical skills and knowledge to solve complex problems and create effective solutions
- Demonstrated strong problem-solving skills, attention to detail, and a commitment to continuous learning and improvement
- Contributed to a positive and productive team environment.

PROJECTS

I worked on building a LinkedIn clone using modern web development technologies. My main focus was on the frontend creative side of the project. I created the user interface using HTML, CSS, Vue.js, and Nuxt.js, and implemented backend functionality using Firebase.

Live Site: <https://linkedin-clone.com>

Github Link: github.com/mdsiamsheikh

Tools/Technology: Vue.js, Nuxt.js, JavaScript, HTML, CSS & Figma, Firebase

- Implemented user authentication and authorization functionality using Firebase Authentication.
- Designed and built a responsive user interface using Vue.js and CSS.
- Created a database schema and used Firebase Firestore to store and manage user data.
- Developed various features such as user profiles, job postings, messaging, and connection requests.
- Conducted thorough testing and debugging to ensure the project was free of errors and bugs.
- Deployed the project on a live server for public access and user testing.
- Collaborated with a team of developers to ensure the project met client requirements and was delivered on time.
- Continuously updated and maintained the project to improve its functionality and user experience.
